

# GROUNDPOWER SLATE

---

# THANK YOU.

**W**E WOULD LIKE TO take a moment to thank everyone who has supported us during this campaign. All of the brothers and sisters in the stations that voted for us. All of the reps and agents that encouraged everyone to participate in the voting process. All of those willing to escort us on their own time so that their members could meet us and listen to us make our case to represent you. Thank you. It means a lot to us. For anyone that didn't vote for us, we hope that you continue to be active and involved in helping to create the strongest local union possible. For those that didn't vote in this election, we hope to engage you during this term and to demonstrate the importance of participating and being an active union member.

Today is a day of celebration for us, not because our goal is complete but because we have won the opportunity to effect change within the Local. Our slate is of the mindset that every day of our term serving the membership is an opportunity to demonstrate our value in each of these positions. We ask that you stand with us in moving towards bringing this local to its strongest period in our history.

In Solidarity,  
**Groundpower Slate**
